Virginia and I often worked 10 to 14 hours per day, seven days per week, for 20 years doing research and writing on who are the main people behind wars and financial suffering on Earth. These people have caused death and suffering to hundreds of millions of people.

It is not theory, it is documented facts.

Virginia did 95 % of the research which allowed me to write a book exposing these evil people. The book title is The Reckoning for Earth. It was available for reading for free for many years at the McClaughry blog, but the blog is currently set to private.

I wrote a Foreword to the book that paints the overall picture but does not provide the documentation. The documentation is found in the book chapters. It takes about an hour to read the Foreword.

We have been viciously attacked for doing this. But we are not the bad guys in this fight.

Those people who have been attacking us are aligning with the most evil people on Earth.

You recently wrote that you will reveal private

You recently wrote that you will reveal private communications and private information on people who are f**king with you. That is not us, we would prefer to see you doing well in life.

However, there are two things you could do that we would not accept. One is if you decide to attack us. We would not remain silent, we would publicly defend ourselves.

The second one is telling harmful lies. We stand for the general good and for truth.
No one has the right to spread lies and then attack anyone who exposes the lies by telling the truth.

I hope this helps.
